COMFORT AND PROTECTION FOR YOUR FEET

Soft Works footwear is suitable for use in hospitals, clinics, restaurants, industrial kitchens, bakeries, hotels, refrigerators, butcher shops, cleaning areas, and other places with slippery floors.

The upper is **made of EVA**, a super **lightweight** material that provides **comfort and cushioning with high shock absorption**. Its exclusive formulation **has antimicrobial (antimicrobial nanotechnology) properties that reduce foot odor**.

The sole features **special rubber with Super Grip technology – SRC Slip Resistant** (the highest rating in slip resistance tests), making it suitable for wet floors with detergent, soap, and greasy surfaces, as well as being resistant to fuel oil.

The design is modern, lightweight, soft, extremely comfortable, durable, and resistant.

The shoe is waterproof, easily washable, and allows for daily cleaning.

Instructions for Using Soft Works Footwear

- **Wear cotton socks for better sweat absorption.**
- **Washing:** They can be washed with water, soap or detergent.
- **Disinfection:** Sanitize them with Bleach (Chlorine 2.5%) or Sodium Hypochlorite in its most concentrated form.
- **Drying:** Dry in the shade or wipe with a cloth. Important: Do not dry in direct sunlight and avoid placing it in dryers, ovens or behind refrigerators.
